

Valued Customer,

Re: Regulated Heavy Metals

This letter is in response to your request for information regarding compliance to CONEG (Coalition of Northeastern Governors) or Reduction of Toxics in Packaging, concerning the regulated heavy metals.

We have established through certification from our raw material supplier(s), and/or through independent laboratory analysis that Cadmium, Hexavalent Chromium, Lead, or Mercury are not present in our packaging products, or have any incidental concentration levels that exceed 100 parts per million.

In addition, Cadmium, Hexavalent Chromium, Lead, or Mercury are not intentionally added, or used in our manufacturing process.
